**Ground Sold by School Board for \$83,882.50 Cost the Board Approximately \$40,000 Plus What Was Spent for Surveys, Plans for Proposed New High School Building, Etc.—Balance to Compensate for Conditioning Site Purchased for Building of New School.**

Bristol school board, last night, sold to Kaiser-Fleetwings, the 26 acres of land which it owned opposite the plant of the purchaser on Radcliffe street, and immediately purchased the tract of land on Beaver street, formerly occupied by the Bristol Processing Co.

The transactions were consummated at a special meeting of the school board held in the high school building. The board voted to keep all moneys accumulated from the transfer of the Radcliffe street property and all income derived from the Beaver street property in a separate fund to be used for the improvement of the Beaver street property.

Immediately upon the convening of the board by Mrs. William Harding, president, the agreement of sale by which the board transferred the ownership of the Radcliffe street property to Kaiser-Fleetwings was read by the secretary, Paul V. Forster. The consideration was given as \$83,882.50 or approximately \$3,250 per acre.

At the time of the purchase of the Radcliffe street site by the school board, the price was given as approximately \$10,000.

A check for \$8,500 was given last evening. Settlement is to be made on or before March 21st at which time possession will be given.

Excluded from the purchase of the Beaver street property are the factory buildings and a strip of land, 60 feet wide along the southwest and northwest sides of the factory, and a portion of land on the northeast side of the buildings, extending roughly to the lower side of Adams Hollow creek.

Along the upper, or northeast boundary of the tract, which extends approximately a quarter of a mile along new Route 13, there is to be a 50-foot wide right-of-way, squared off at right angles with the new highway. This is to be dedicated as a public right of way or street by the school board and the owners of the adjoining tract.

A resolution authorizing the proper officers of the board to execute the agreement on behalf of the board was unanimously adopted.

The secretary of the school board, Paul V. Forster, who is also the board's counsel, informed his clients that a petition has to be filed with the Bucks County Courts in conformity with the Pennsylvania school code, stating the sale and the price received. A hearing date is then set, and if no objections are heard at that time the court authorizes the sale.

The next step in the sale of the one tract and the purchase of the other one was the reading of an agreement of sale by Mr. Forster wherein the Manor Real Estate & Trust Co. agreed to sell the land generally known as the Bristol Processing Co. to the Bristol school district for \$15,173.08, or approximately \$500 per acre for the 30-plus acres. A check for \$1500 was given. Settlement is to be made within 30 days and possession given at that time.

The property just purchased by the school board includes a tract of

A Philadelphiaan stood before Justice of Peace, Edward Lynn, in municipal court, the other day. He had been imbibing too freely and after leaving a local taproom had climbed up on the roof of the property. "He had been drinking aviation stuff," commented a police officer. "He wanted to go up in the air."

"What were you doing up there?" asked Judge Lynn. "Oh, I don't know," replied the prisoner. "Whenever I drink I always feel like climbing."

"Act like a monkey?" asked the judge. "I had better send you down to the zoo," said Lynn. Then a buddy of the prisoner came up for a hearing. He said that he had tried to come to the aid of the defendant. "Why didn't you get a chain and a tin cup," said Lynn, "and take your friend out and make some money?"

### School Board Statement

The Bristol School Board issued the following statement through its president, Mrs. William Harding, following adoption of the resolutions authorizing the sale of the Radcliffe street tract and the purchase of the Bristol Processing site:

The Bristol Borough School Board is happy to announce that an agreement has been reached for sale of the School Board's land on Radcliffe Street to Kaiser-Fleetwings, Inc., and for purchase by the School Board of land formerly belonging to the Bristol Processing Company, at the intersection of Beaver Street and the new State Highway. Negotiations have been in progress since September 1948, when Kaiser-Fleetwings, Inc., first requested a ten-year option on the School Board's land and soon thereafter proposed purchase. ## A SUMMARY OF THE NEWS

Bills to increase Social Security benefits, to add 20,000,000 workers to those eligible for old-age retirement benefits and survivors insurance and to permit direct Federal participation in state aid to the needy were introduced in Congress yesterday. The changes would double Social Security taxes and benefits.

Sweeping reorganization of the State Department was recommended to Congress by the Hoover Commission. The authority of the Secretary of State would be strengthened, the President would have a freer hand in foreign affairs and the foreign affairs activities of "some forty-five other" Government agencies would be co-ordinated with those of the State Department under the recommendations. The report questioned the desirability of the requirement of a two-thirds vote in the Senate for treaty ratifications.

A House committee decided to study charges that the ECA was favoring a few large companies in buying and selling oil. ECA Administrator Hoffman said that, despite possible adverse effects on many American producers, this country's trade with Marshall Plan countries must be brought into "rough balance" by the time the plan ends in 1952. ### Plan Friday Rites For Late Geo. Bazzel

LANGHORNE, Feb. 22 — Death last evening claimed George Bazzel at the home of his daughter, Mrs. Archie Kauffman, 197 N. Pine street. Mr. Bazzel, 65 years of age, was the husband of the late Elva Lippincott Bazzel.

The survivors are three sons, Irwin T., William L., and Carl H. Bazzel, Langhorne; a daughter, Mrs. Kauffman, Langhorne; six grandchildren; a sister, Mrs. William L. Stackhouse, Doylestown; and a brother in Ithaca, N. Y.

Funeral service is to be held Friday at two o'clock at the Kauffman home, with the Rev. Horace Hoffmann, pastor of Langhorne Methodist Church, officiating. Burial in the local Methodist cemetery will be in charge of R. L. Horner, funeral director. Friends may call Thursday evening.

### CLAIMS \$21,729 IN DAMAGE SUIT FILED

Ida H. Diehl, Pipersville, Brings Action Against Daniel and Paul Histan

#### ONE OTHER SUIT

DOYLESTOWN, Feb. 22 — Claiming a total of \$21,729 damages, Ida M. Diehl, of Pipersville, has filed suit against Daniel Histan and Paul Histan, of Pine Run Farm Supply Company, of Doylestown, in the Court of Common Pleas of Bucks county. Several other suits, one involving a Chertown man, have also been started.

Mrs. Diehl is suing in behalf of the Estate of D. Horace Diehl, well known Bedminster township farmer, who died July 3, 1948, in the Abington Hospital, after injuries received April 8, 1948.

Mrs. Diehl claims that her husband was injured when a truck driven by Paul Lewis and owned by the defendant, Daniel Histan, drove on to a barn floor which crashed beneath a heavy load of feed. Diehl was pinned between the truck and a portion of the barn. The widow and a son, Chester, are named in the claim.

Ralph M. Lewis, of "Lido Farm," Uhlertown, has started suit for damages against Paul H. Hoffman, Jr., of Millville, N. J. The complainant was riding a motorcycle on May 15, 1948, when it collided with a car driven by the defendant while crossing Tophick Creek bridge. Point Pleasant. The motorcycle was damaged to the extent of \$262.51 and the complainant, who is employed by John D. Weaver Co., Frenchtown, N. J., lost considerable wages.

#### THE BOOS ESTATE

Patrick B. McFadden, Late of Bristol, Leaves \$4200 Estate

DOYLESTOWN, Feb. 22 — Two holographic wills have been filed for probate in the office of the Register of Wills of Bucks County recently. One was written on personal stationery by Mrs. Helen P. Fretz, Newtown, and the other was written by Minnie B. P. Clifton, Solebury township.

Ira H. Cornell, Newtown township, formerly an auctioneer, who died December 23, 1948, left an estate of \$25,000. Letters of administration were granted to a son, Raymond C. Cornell, Newtown township, and the beneficiaries include the son and daughter, Edna C. Search, Ivyland, RD.

A daughter, Kathryn Gustaf, 2828 Yorkship road, Camden, N. J., will inherit the \$5,000 estate of her father, Jacob Boos, Bristol. The will was written Dec. 29, 1945, and the testator, who also named his daughter executrix, died Jan. 7.

## MAKING PEOPLE WORK

In every labor-law proposal, there is a point where the question is: what to do if, after all the mediation, union members still persist in striking?

In recent times, nearly always the comment is made: "Well, even the government can't MAKE somebody work if he doesn't want to."

Now, what OUGHT to be done is a question that will have to be decided in the long run by Congress and those they represent, the American people.

But as for what COULD be done—what the Government has the POWER and at times even the DUTY to do—there is no reason at all for such a foolish notion as to go the rounds. Government CAN MAKE PEOPLE WORK.

There is nothing in the Constitution which guarantees that an individual has the right to walk off his job, or stay off his job, if the Government tells him to keep on working.

Some of those engaged in public discussion of labor matters merely pretend to think there is a basic American right to quit one's job, whatever the circumstances, and regardless of consequences. All ought to know better. If they don't, they don't understand much about government in general or the American plan in particular.

If you want to know what the Federal government was set up for, turn to the preamble of the Constitution. You will find there that the American people—"We the people"—set up the government to "insure domestic tranquility" and to "promote the general welfare."

Whenever a strike or labor dispute seriously disturbs "domestic tranquility" or damages "the general welfare," Uncle Sam has a right to step in; sometimes it is even his duty.

There are many activities in our national life where a long strike or shut-down could demoralize the whole country. What was government created for, if not (among other things) to meet exactly that sort of crisis? And where the claims of factions run counter to the rights and interests of the whole public, how can it be other than the duty of the government to support the whole public's rights over the rights of the factions?

The Federal government is not alone in having very broad powers to suppress violence and disorder. The states also have such powers—perhaps in the last analysis in even greater degree.

### Family Plans Dinner Party For N. LaPolla

A dinner party was held at the residence of Mr. and Mrs. Nicholas LaPolla, Wood street, on Saturday evening in honor of Mr. LaPolla's birthday anniversary.

The affair was a surprise to Mr. LaPolla and was arranged by members of his family. Cards were enjoyed. Those attending were: Mr. and Mrs. Daniel Healey and son, Daniel, of Frankford; Mr. and Mrs. Anthony Natale and daughter, Jane; Mr. and Mrs. Thomas Commare and son, Joseph; Mr. and Mrs. Angelo LaPolla and sons, Francis and Angelo; Joseph LaPolla, Mr. and Mrs. Mark Taylor, Mr. and Mrs. Nicholas LaPolla and son, Nicholas, Bristol.

Mr. LaPolla was the recipient of gifts. Mr. and Mrs. Healey and son Daniel were week-end guests of Mr. and Mrs. LaPolla.

### NIGHT SCHOOL AT CO. SEAT PROGRESSES

95 Adults Attending The Sessions, Report Shows

#### TEACHER COST \$300

DOYLESTOWN, Feb. 22 — Satisfactory progress is made at the adult night school being conducted in this borough, state Dr. J. Edward Smith, superintendent, and the faculty in charge of the classes.

Dr. Smith states that cost of instruction for the night school is approximately \$300 for 95 adults. Of this, the State provides 63 per cent, or \$189, making a local expenditure of only \$111.

Four classes were run this year in art, woodwork, sewing and typing. A minimum registry of fifteen was required for each class, with each pupil paying three dollars, which will be refunded if he attends 75 per cent of the classes.

Twenty started out in the art class, under Miss Marjorie O'Donnell, with many landscapes and portraits accomplished in oil and pastels. Those who have stuck to their brushes are Mr. and Mrs. Reginald Carter and Oran Fincher, of Pt. Pleasant; Mrs. Margaret Fatzinger and Mrs. Lillian Hoffman of New Britain; Mrs. Anna Murray, of Warrington; and Mrs. Isaac J. Vanartsdalen, Miss Grace Foxhall, Mrs. Veronica Hockman, Miss Blanche White, and Miss Florence Ellinger, all of town.

Of the 20 who began in the wood-working class, under C. Bartley Elfin, two did not appear, two had to drop out to attend veterans school, and another has been ill. Those still attending are Mrs. John W. Sigatons, Mrs. Florence Schleicher, William E. Wolfe, Mrs. Grace M. Foxhall, Mervin Welch, Dean Schleicher, Theodore Barash, Raymond C. Barney, Miriam Blackmon, Luther Doyler, Rollin Bush, Martha Chmielecki, Hilda Hager, John Hupp, Harold Kratz, Marion Lanson and William L. Lowther.

The night class carpenters have made trays, whatnots, wall cabinets, storm sash, three baby chairs, a work bench, a fourteen-foot ladder, wall shelves, window frames, small tables, and a radio cabinet.

## KAISER-FLEETWINGS BUYS SCHOOL BOARD TRACT ON WHICH TO BUILD ENAMELING PLANT IN EXPANSION PLANS TO INCREASE SANITARY WARE PRODUCTION

### "Lumber-jack Ball" Is Attraction At Bensalem

ANDALUSIA, Feb. 22 — A gala time was had by a huge gathering on Friday evening, at Eddington Farms, when the entertainment committee of Pen Ryn Episcopal School Parent-Teacher Association sponsored a "Lumber-jacks Ball," Charles Allen was chairman.

Festivity was added to the occasion by the colorful costumes of the guests, the women wearing calico and gingham dresses, or slacks with colorful shirts. The men were resplendent in plaid shirts, and slacks or dungarees. Music for dancing was provided by an orchestra. Square, ballroom, "hokey-pokey" and "boom" dancing were enjoyed. Mrs. Edwards, girls' physical education instructor at Pen Ryn, called the square dances.

Door prizes, consisting of cans of dry cleaning fluid, an ice-crusher, pop-up toaster and a ham were awarded. Games were enjoyed. When the prize for the men's game of "duck strut" was awarded, the prize, a live duck with red bow on his neck, escaped her new owner and wandered casually over the dance floor. Supper, consisting of hot dogs, sauerkraut, doughnuts and coffee, etc., was served.

### VALUE OF REPORTS STRESSED TO POLICE

FBI Instructor Tells Class Good Records Are Necessary

#### HOW TO KEEP THEM

The second class of the Police Training School sponsored by the F. B. I. and the Pennsylvania Chiefs of Police Association was held yesterday in the Municipal Building in Bristol. Seventeen members were present, representing Bristol Police Department, Pennsylvania Railroad, and other various police departments of Bucks county.

Joseph R. McFadden, of the F. B. I., was the instructor, covering the subject of report writing. He said: "Most police departments have regular forms to fill out as a report for larceny, accidents, doors left open, and lights out, but other police reports do not have a regular form, so any piece of plain white 8"x10" bond paper does very nicely to make your report on."

Mr. McFadden told the members there was no simpler system for filing and keeping the reports than using 3x5 cards for indexing and cross reference, and the 8x10 white bond paper for the report. "In every county there should be some central place for the files that would contain records of all cases in the county, so that any local police department can receive the information." He then cited cases to stress his point of the importance of this and using a good filing system.

"When taking note, use a note book or loose paper, but be sure that you use the same every time, as that makes your notes more uniform. It is also best to use every-

**New Building Will Contain 60,000 Square Feet and Will House 1,800-Ton Press and Largest U-TYPE Electric Furnace in United States — Program Will Cost \$4,000,000.**

An expansion program by Kaiser-Fleetwings, Inc., involving an ultimate expenditure of \$4,000,000, and the employment of several hundred more workers, was revealed today following the announcement of the purchase by the Kaiser firm of the tract of land opposite their Radcliffe street plant from Bristol borough school district.

The tract comprises 26 acres and lies directly opposite the Kaiser plant, and was purchased for a consideration of \$83,882.50.

A Kaiser spokesman said today:

### Complete A Survey Of Delinquent Voters

DOYLESTOWN, Feb. 22 — Complete tabulation of figures on the two-year delinquent voter survey, which was in progress in the Bucks County Registration Office, Doylestown, since Dec. 13, 1948, has been completed.

The figures, as released by the department, show that a total of 918 registrations were reinstated by virtue of the return of the request for reinstatement cards within the specified time.

Broken down by party affiliation, the reinstatements represent 495 Republican, 382 Democratic, 38 Non-Partisan, and 3 other parties.

The cancelled registrations numbered 2824, and represent 1841 Republican, 845 Democratic, 129 Non-Partisan and 9 other parties. The final compilation indicates that slightly less than 25 per cent of the 3,742 delinquents notified requested reinstatement within the allotted time. All of the delinquent voters who continue legal residence in Bucks county, and who failed to reinstate, will be obliged to re-register in order to be eligible to vote.

"Further expansion is to be accomplished in the main plant at an estimated cost of nearly \$1,000,000. Upon completion of these additional facilities, total employment will be approximately 2,000 men and women," the statement concluded.

On Sept. 30th, last year, it was announced that a substantial interest in Kaiser-Fleetwings, Inc., here, had been purchased by Sears, Roebuck & Company.

According to T. V. Houser, merchandising vice president of Sears, arrangements had been made by Sears, Roebuck with the Kaiser interests to expand the Bristol plant for the purpose of producing porcelain enamel, steel sanitary equipment exclusively for Sears.

Houser stated that the post-war demand for various types of plumbing fixtures has made it essential that Sears expand its supply sources for this type of merchandise. "The Kaiser deal will," he emphasized, "merely supplement present sources of supply. The items to be manufactured will include sinks, bathtubs, lavatories, and sink cabinets."

#### HULMEVILLE

Miss Joan Moyer, who entered Frankford Hospital School of Nursing, Philadelphia, on August 31st, was one of 22 student nurses who received their caps at a ceremony in the nurses home there last evening. Her parents, Mr. and Mrs. Ned Moyer, also "Jack" and Ned Moyer, Jr., Hulmeville, and Mrs. John Moyer, Bristol, attended the ceremonies.

Sunday visitors of Mr. and Mrs. Frank Harper, Bensalem township, were Miss Florence Vallen and a friend of Philadelphia.

"This tract will be the site of a new porcelain enameling plant, construction of which is to begin at once. The building will be 60,000 square feet in area and will house, among other equipment, an 1,800 ton press for the drawing of bathtubs and other plumbing ware, and the largest U-type electric furnace for porcelain enameling in the United States."

"Costing \$2,163,000, this unit of 'Fleetwings' expansion program will be in operation in late fall. Additional facilities will include spur tracks and 20,000 square feet of storage area. Present estimates indicate that the porcelain enameling plant, when in full operation, will ship about 10 carloads of products daily."

"The enameling plant will be served by an intricate system of conveyors to handle products which have been formed in the main plant across the street, in addition to bathroom and kitchen fixtures produced within the enameling plant itself."

"Also to be installed are bonderizing equipment, spray painting booths and batteries of driers."

"Further expansion is to be accomplished in the main plant at an estimated cost of nearly \$1,000,000. Upon completion of these additional facilities, total employment will be approximately 2,000 men and women," the statement concluded.

### WASHINGTON'S ADVICE

For a long time honors were heaped upon the memory of George Washington as the Father of His Country. Tributes to him were in recognition of his services as founder of the government of the United States.

But the astonishing revelation is becoming plain that the counsel of Washington is needed over and over again. He does not recede as the nation's history unfolds. His spirit, like a guardian angel, constantly inspires, admonishes and directs the American people.

Seldom has this nation pursued policies out of harmony with his advice without afterward learning the error of its ways.

Again and again his warning to "steer clear of alliances with any portion of the foreign world" has been quoted. But this is but one of many observations which he directed to those associated with him in national affairs.

He repeatedly called to the attention of his countrymen the advantages of their then isolated position with reference to European problems.

"Why," said he, "forego the advantages of so peculiar a situation? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalry, interest, humor or caprice?"

Washington warned against partisanship at home, pointed to the dangers inherent in expansion of governmental powers. The nation should never stop pondering his advice as it celebrates the anniversary of his birth from year to year.

### WHAT'S WRONG WITH P. O.

Of the many recommendations made by the Hoover Commission on Government Reorganization, the most recent can probably be labeled as the least likely to succeed. Yet it is the one which definitely ought to succeed because among all the federal services the Post Office Department is most in need of businesslike administration and the most bedeviled by politics.

By a tradition nearly as old as the government itself the Post Office Department is the refuge of politicians and the victim of the spoils system. Time after time the cabinet post of Postmaster General has been allotted automatically to the chairman of the political party which happens to win a presidential election. The Hoover Commission would prohibit this practice.

The commission's recommendation that postmasters throughout the country should be chosen from within the service and should not be subject to confirmation by the Senate is open to question. Undoubtedly the effect would be that postmasters—more than at present—would be interested in making things easy for employees of the office, rather than in giving service to the public.

But reforms of some sort in the postal system are so desirable that something should be done.

## Making People Work

Continued From Page One

The states have the duty of maintaining peace, law and order in their borders, and the authority to do so under their police powers.

As to the government being unable to "make" people work, what about the draft? We've had it for nearly ten years, now. Millions of men and boys have been tapped on the shoulder by Uncle Sam, called away from their homes and jobs, given often distasteful assignments, sent into danger and death—all without consulting these individuals as to their wishes in the matter.

Some discussion occurs, from time to time, as to whether the Thirteenth Amendment, barring "involuntary servitude," would not prevent the government from telling a striker that he had to go back to his job.

This is clever, but not accurate. If the "involuntary servitude" clause meant a man could always quit his job when he wanted to, under all circumstances—then it would also make any compulsory military service law unconstitutional.

But the draft act of the First World War was appealed on precisely this basis—and the Federal courts ruled that "a soldier is not a slave," and therefore the constitutional ban on servitude did not apply.

Given more firmness on the part of those in charge of government, and more moderation on the part of certain labor leaders, and questions of this sort would not arise.

On the other hand, if the ruthless minority of labor bosses in this country who insist on defying the public's will and interests keep on calling strikes that border on anarchy, and if the American public ever awakens to realize how much power the government really has to deal with such matters, then there will be an overwhelming clamor for laws that have "teeth in them" with a vengeance.

There is this much—but no more—truth in the assertion that the government can't MAKE a man work; if there are those who would rather be punished than get on the job when Uncle Sam tells them to, then some sort of punishment would have to be inflicted—and the individual would be able to boast that he hadn't done the work.

But a show of willingness by the government to step in and break up a strike that is improper, lawless, violent, harmful to the public—the mere acceptance by the government of its responsibilities would bring many forces into play.

The labor bosses are willing enough for the "small fry" in labor to clash with the law on the picket lines, in ambushing non-striking workers, and in various unwarranted activities; but these leaders value their own skins too much to risk clashing directly with Uncle Sam when he has his sleeves rolled up.

Without the incitement of the labor agitators, many strikes would never be called. Once the government intervened, and showed it meant business, then the labor agitators would be extremely careful not to get caught telling the strikers to stay off their jobs.

Again, whenever the government intervened in the public's interest, and ordered the tie-up halted, then the strike itself would become an outlaw or wildcat strike—and the workers who stayed off the job could be replaced by other persons willing to work.

Why has government, in recent years, refused to step in and break up strikes which were clearly, sometimes admittedly, unnecessary and dangerous; strikes wide in scope, often most disastrous to those outside the labor dispute?

Why have many public leaders come to pretend that the government lacks power to intervene, when it is perfectly clear that the power is there, in any time someone comes along with courage to use it?

The reason is that too many ambitious politicians have been vying politics with the labor bosses. They have been swapping vote support for subservience. In other words, they have been selling the whole public out for an organized minority.

Any time the public really gets tired of this sort of runaround, it can bring pressure to bear on its public officials that will compel them to use some of the authorities Uncle Sam has to "insure domestic tranquility" and "promote the general welfare."

But however loud the grumbling over the inconvenience and money-loss of these spectacular strikes, it may be that the public hasn't yet "had enough."

### School Board Statement

Continued From Page One

Informed the Board that the Company wanted this land to build and equip an enameling plant and warehouse at a cost of several million dollars, and that they confidently expected to employ several hundred persons, once the plant was in operation.

From the outset, the Board was favorably inclined toward the proposition, since the advantages that would result to the community as a whole from establishment of so large a new local industry were unlimited. However, the Board was determined that, whatever the outcome of the negotiations, two fundamental requirements would have to be met: first, that the School Board must be able to acquire an equally desirable tract of land suitable for school purposes, with sufficient acreage to meet the requirements of the Department of Public Instruction at Harrisburg; and second, that the School Board should lose no money through the transaction.

Representatives of the Pennsylvania Railroad Company, interested in the transaction because of substantial freight revenues anticipated through establishment of the new plant, first offered the School Board a narrow tract of land along the southeast side of the railroad embankment, lying northeast of the baseball field on Otter Street. In the opinion of the Board this tract was definitely inadequate for school purposes, and the proposal was promptly refused.

The Railroad Company's representatives then suggested the possibility of acquiring land of the now defunct Bristol Processing Company. The Board had considered this land in 1946 before purchasing the tract on

Radcliffe Street, but since the Processing Company was then actively in business and the price would have been prohibitive, the idea was discarded. Now that there seemed to be a possibility that this land might be for sale, the Board expressed a definite interest in the Railroad's suggestion. This culminated in the Railroad's announcement to the Board, some time in November 1948, that the land was available.

From then on it was primarily a matter of reaching terms. While the location of the Processing Company tract is more desirable, since it is more centrally located with respect to the Borough as a whole, there exist on this tract certain soil conditions against which the Board felt duty bound to protect itself. The Board is also under obligation to the Federal Works Agency of the United States government for \$13,000.00 advanced for plan preparation and specifications of a new high school building, designed for the tract opposite the Fleetwings plant. Change of location would necessarily call for revision of these plans and possibly for the preparation of entirely new plans. Against this additional cost, also, the Board definitely felt obliged to protect itself.

Finally, since the northeastern boundary of the Processing Company tract is almost opposite the present high school building on Garfield Street, and it would be to the schools' and the community's advantage if both school sites were within easy access of each other, the Board was of the opinion that some provision should be made for the possibility of an underpass under the railroad in the vicinity of Garfield Street.

With these essentials in mind, the Board had its architects and their engineers examine

mine the Processing Company tract and submit estimates as to the cost of filling, draining, grading and etc. Upon the basis of these figures, the Board and the representatives of Kaiser-Fleetwings, Inc. and the Pennsylvania Railroad Company finally reached an agreement.

The agreement calls for sale of the tract opposite the Fleetwings plant to Kaiser-Fleetwings, Inc., at the rate of \$3,250.00 per acre, or a total of \$83,882.50. At the same time, the School Board is to purchase the land of the Bristol Processing Company tract at \$500.00 per acre, the dwelling and barn or sheds on the Beaver street side of the tract being included. Excluded from the sale is the factory building and a strip of land sixty feet wide along the southwest and northwest sides of the factory, and a portion of land on the northeast side of the building, extending roughly to the lower side of Adams Hollow Creek. Permanent restrictions are to be placed on use of the factory, prohibiting excessive noise, excessive smoke, and offensive odors. Along the upper or northeast boundary of the tract, which extends approximately a quarter of a mile along the new State Highway, there is to be a fifty feet wide right-of-way, squared off at right angles with the new highway, to be dedicated as a public right-of-way or street by the School Board and the owners of the adjoining tract jointly. The entire tract to be conveyed to the School Board, including also a small triangular piece of ground at the northwest corner of Beaver Dam Road and the Highway, contains thirty acres, which is ample for all foreseeable school needs.

While it is impossible to determine with any reasonable degree of accuracy what the actual costs of filling and draining the new tract and the cost of plan revision or preparation may eventually be, the School Board believes it has an adequate margin of safety to cover these costs in the differential between the price at which it has agreed to sell the Fleetwings tract and the price at which it has agreed to purchase the Processing Company tract. This money is to be permanent set aside and used for school building purposes and for school building purposes only.

As a look at the map of Bristol will show, the new location is within easier reach of the Borough as a whole and, while the possible objection of proximity to an industrial plant has not been eliminated, that objection has been reduced to a minimum decidedly less than similar objection to the Fleetwings tract. The new location lends itself much more readily to the designing of an attractive, yet economically and efficiently planned, high school building, with athletic fields, of the type and character which a community of the size of Bristol ought to have. Eventually, erection of a high school building and development of adjacent athletic fields on the new tract will also eliminate the present undesirable condition created by the overflowing of Adams Hollow Creek, converting what is now an unsightly view into a vista of genuine beauty and charm.

Throughout the entire transaction, the Board has been motivated solely by one and only one purpose, namely, to serve the citizens of Bristol Borough in general, and its school children in particular.

dren in particular, to their best advantage, without destroying or in any way reducing the employment possibilities of the old Bristol Processing Company plant, the School Board has cleared the way for the establishment of a new and greater industry in Bristol, the good effects of which should eventually be reflected in a far more prosperous and thriving community. It has acquired a new school site in many ways more desirable than the original site; and it has done so without monetary loss and with ample protection against additional costs which it might not otherwise have encountered. The School Board believes the transaction has laid a solid foundation for future development of the community's schools and has added materially to Bristol's industrial opportunities. The Board sincerely hopes that its action may merit the wholehearted approval of Bristol's citizenry."

## 'Hobby Night' Is Marked By Juniors At Chalfont

CHALFONT, Feb. 22 — Chalfont Junior Women's Club members observed "hobby night" at the residence of Miss Florence Jacoby, here, on Thursday.

A number of articles made by the young women, and which were displayed, were: knitted sweaters, matted and crocheted doilies, portraits, painted boxes, needlepoint pictures, dresses and suits.

A brief discussion was held on social medicine and sex crimes, and decision made that members should express their desires for suitable legislation in letters to their Congressmen.

It was decided to send a donation to the Heart Drive and cooperate with the Salvation Army drive.

The plan to have professional actors and actresses present a play this Spring was postponed until next year.

Mrs. J. Clyde Derstine, of the Girl Scout committee, reported that Mrs. E. Clyde Fly, intermediate Girl Scout leader, has resigned and Mrs. Richard Fuller will fill in for the remainder of the year.

A theatre party is arranged for March.

It was announced that the program for the next meeting will be a hat and egg decorating contest.

## ATTENDANCE RECORDS

ANDALUSIA, Feb. 22 — Andalusia Lions Club held its dinner meeting at Becker Farms Inn on Thursday evening. Raymond Vickers gave the invocation. Richard F. Brackin, secretary of the club, read a list of the following members who had perfect attendance at meetings for one year. John Ferguson, William Rever, Stanley Smith, Ralph Sterner, William Sterner and Richard F. Brackin. The following had missed but one meeting during this period: John Mawby, Francis Ross-baner and Raymond Vickers. Guests at this meeting included the zone chairman, a member of Yardley Lions Club, Louis Leedom, who addressed the group. Robert Oliver, treasurer of Yardley Club, was also

a guest; as was Carl Eickman, Andalusia. Discussion of the convention of Lions International to be held in New York, N. Y., in July followed.

## WARRIORS WIN IN EXTRA PERIOD AT BORDENTOWN

BORDENTOWN, N. J., Feb. 22.—Bordentown High underestimated the stamina of the Bristol High team last night and in a thrilling extra period battle, the Warriors won over the Jersey team, 47-43.

Bordentown had a 42-36 edge and began to play the ball back court to "kill" the clock in the final period. But Coach Jerry Bloom gave orders to shift from the zone defense into a man-for-man and a chase was on. Bordentown still had its six-point lead, 42-36, when the three-minute buzzer sounded for an automatic time.

The Jerseyites thought the Warriors were finished but Sottile "stole" the ball and scored a twin-point. On a fine play, Bielecki to Rich, Bristol again scored to make the count, 42-40. Time was running short and the playing was wild under the Bordentown basket. Twice Sottile missed shots and Rich also had two attempts to even the count and missed. Finally with four seconds left to play, Sottile took a rebound and was fouled just as the final buzzer sounded.

The ball dropped through the hoop for what would have been the deadlocking field goal but Referee "Bill" McCoy ruled that Sottile was fouled before the shot. Bristol waived the foul shot and took the ball on the outside. Bordentown had the Bristol boys well covered and only needed to hold their lead for three seconds. The throw-in went to Sottile. "Jim" was blocked on both sides but he leaped high into the air and swished the cords for the tying field goal just as the buzzer went off. However, it was ruled that the ball was in before the game ended so it remained a deadlock at 42-42.

As the extra session began, Sottile took a shot under the basket and was fouled. He made one of his two shots to put Bristol ahead, 43-42. On a pass from Sottile, "Val" Bielecki scored a beautiful side shot and the Bristol lead leaped to three points. Sottile fouled Richardson and went out on personals. Richardson dropped in the foul to cut the lead to two points. Fleur's long shot hit the rim and the Bristol rooters held their breath. The Warriors worked the ball up-court and after a miss, Bob Bowen made a perfect tap-in to make the final score in the overtime period, 47-43.

"Jimmy" Sottile again was high man for the Red and Gray, scoring 26 points on 11 field goals and four fouls. He was the only Bristol player to hit the double-figures.

For Bordentown, Bob Richardson had six field goals and three out of four fouls for 15 points although Don Rhinehart made several beautiful set-up shots.

The two teams used an entirely different brand of offensive basketball. Bristol worked the ball to the baskets and made most of their double-deckers close to the nets. Bordentown, on the other hand, was unable to penetrate the Warriors' defense and did most of their scoring outside the zone.

Most of the game Bordentown was in the lead, but the first period saw the teams battle to an 8-8 stalemate. Bristol took a 5-0 lead at the outset on field goals by Don DeLong and "Ham" Konefal and a field shot by Sottile. But the Jersey team came back strong and took a 7-5 lead on fielders by Francis and Richardson and a foul by the former and Fleur's under-handed throw. Both Richardson and Sottile converted fouls but "Ham" Konefal picked the ball off the floor to even the count at the whistle.

The second period saw the Jerseyites begin to pull out in front. Richardson made three nice shots from the side to match DeLong's tap-in and Bordentown was ahead, 16-10. When Rich scored a double-pointer the score was 19-15 but with Platt and Richardson hitting the cords frequently the score rose to 23-18 as Marshall scored a foul and Sottile a field goal before the half ended.

Bordentown had its biggest lead in the third session. Platt scored to make the count, 25-18. But Sottile scored twice in succession to cut the lead to 25-22. Fleur put it up to 27-22 but Sottile made a three-point shot to shave the edge to 27-25. That was the closest Bristol came to the Bordentown total as the gold-jerseyed players sank in 11 more points while holding Bristol to 7. Richardson's set shot at the end made the third period count: Bordentown, 38; Bristol, 32.

Richardson added two more points to Bordentown's total. But Bielecki scored on a long shot and

on a fine play, Rich to Sottile, Bristol again counted, making the count, 40-36. Clarence Francis scored a pair of fouls for the Jersey team to put the count at 42-26, and then Bristol began its dramatic finish.

Bristol closes its regular season of games Friday night on the home floor, meeting the strong Brown Prep dribblers.

## JUNIOR VARSITY SCORES ANOTHER WIN

BORDENTOWN, N. J., Feb. 22.—Coach Harry McClister's Junior Varsity contingent "blew" an early lead but recovered in time to win over the Bordentown Junior Varsity, 37-34, last night in a well-played game.

In the closing quarter of the game, Bristol had a 33-25 lead. The Jersey team cut this to 33-27 and when Golden made a fielder and foul, the lead dropped to 33-29. Bordentown was fighting for the ball as Glass scored a field goal and Castiglione dropped in a foul to knot the count at 33-33.

"Charley" Rauch made a nice back-handed pass to Dick Puchino who scored and was fouled in doing so to put Bristol three points to the good. Marks' foul shot gave Bordentown J. V.'s a counter but ended the scoring with a gift conversion, making the final digits read: Bristol, 37; Bordentown, 34.

Puchino was high for the Bristol Jayvees with 12 points with Pat Fields and Rauch contributing eight each. Marks had 11 points for Bordentown.

preserve by 50 members of the Monroe County Garden Club, sponsors of the Poconos Laurel Trail.

Other highlights of the past year include a pilgrimage to the park as part of Pennsylvania Week celebration.

The major trail planting of the year was on Gentian Trail, where more than 50 clumps of marsh marigold and 50 clumps of swamp buttercup were set out along the stream.

During the year 1300 plants and shrubs, 125 bulbs and 50 trees were purchased by the committee, collected or donated and set out on the various trails. The memorial trees in Penn's Woods have now reached 148 over the 15-acre tract.

The balance in the treasury at the end of the year, was reported as being \$673.97. Expenditures during the year amounted to \$1,062.27 and receipts were \$1,128.31 plus a Dec. 31, 1947 balance of \$608.24.

## FIFTH WARD CLUB TO MEET FALLS; AND FRANKLIN-HOOPERS

The Fifth Ward Sporting Club will attempt to extend its winning streak to six straight tonight as it meets the Falls Alumni passers in the second game of a double-header on the high school floor. In the first game of the Bristol Basketball League, Franklin meets the Morrisville Hoopers. The latter game begins at 7:30 o'clock.

Fifth Ward has not lost a game since January 23rd when it was beaten by Falls Alumni. Since then it has scored triumphs over St. Anne's, Franklin, Prof's, Hi-ernans, and Morrisville. It has elevated itself from the cellar of the loop until it is in a triple deadlock with the Hibs and St. Anne's for third place. As both the latter teams are due tonight, a Fifth Ward victory will put it in a tie for second place. Falls Alumni lost to Franklin on Sunday and "Bill" Leigh's boys are out to redeem themselves. They need this game tonight if they want to stay in the running for the championship as they trail the league-leading Profy team by one game.

## Bristol High Warriors Await P. I. A. A. Report

Bristol High is awaiting an official report of the P. I. A. A. play-off drawings. Word has reached the local institution that the Warriors will meet Conshohocken High at Abington in the first game of the playoffs during the first week of March.

Charles Utz, faculty manager of Bristol High, has not received the official report from the district representative and will make a further announcement upon receipt of the report.

Bristol drew West Chester in the opening round last year and succeeded in eliminating that team. Norristown beat Bristol at the Palestra and then went on to win the state championship.

Bristol is the Class A representative from Lower Bucks County with Morrisville representing the Class B schools.

## CROYDON RESIDENT ON SWIMMING TEAM

One of the outstanding members of the United States Merchant Marine Academy's swimming team is Cadet-Midshipman William L. Stark son of Mr. and Mrs. Wm. L. Stark of Excelsior Ave., Croydon.

Stark, who is a diver on the team, attended Bensalem Township High, Cornwall Heights, before entering the United States Merchant Marine Academy.

The Academy swimming team has acquitted itself well so far this season by winning its first five meets with St. Peter's, N. Y. University, City College of New York, Bridgeport, and Brooklyn Polytechnic Institute. Several other Inter-Collegiate meets are also on the calendar for this season. It is trying hard to maintain its record of last season of 4 wins out of 6 meets, and firsts in diving and 100 and 220 yard freestyle at the 3rd Metropolitan Championship.

## ANDALUSIA

Little Freddie Ferguson was confined to his home last week by illness. The Ladies Auxiliary of Torrens Manor Improvement Association, Inc., held a regular monthly meeting Wednesday evening, at the home of Mrs. Francis Rossbauer, with Mrs. Kenneth Scannell as co-hostess. It was decided that the card party planned for the near future will be postponed until after Lent. Cake and coffee was enjoyed.

Dorothy Vickers, SK 1/c, U. S. Navy, is spending a few days with Mr. and Mrs. Raymond Vickers. She is stationed at Treasure Island, Cal.

Mrs. Henry Radecki was on the sick list last week.

Mr. and Mrs. Walter Cunningham and daughter, Sandra, San Francisco, Cal., are spending a few weeks with Mr. and Mrs. James Cunningham, and visiting Mr. and Mrs. Rodman Fries, Philadelphia.

The Cunninghams are former residents of Andalusia. Mrs. Cunningham is the former Miss Pauline Fries.

land extending for about 624.48 feet along Beaver street; 1464.62 feet along New Route 13; 565.73 feet along Jefferson avenue; and 1,680.51 feet along the dividing line which separates the tract purchased from the remaining acreage remaining in the possession of the Manor Real Estate & Trust Co. The Manor Real Estate & Trust Co. was the agent which recently acted for the P. R. R. Co. in the purchase of the numerous tracts of land in Falls Township area.

On the tract are included a large cement block residence at Beaver street and Jefferson avenue; a large garage along the Jefferson avenue frontage now occupied by Bunting-Bristol Transfer, and one large frame storehouse.

The seller agrees to relocate gas, electric and water facilities upon request of the purchaser, and restricts the use of the property on the land remaining in the possession of the seller, guaranteeing against its use for any purpose which might create excessive noises or objectionable odors.

A resolution unanimously adopted authorized the proper officers of the board to execute the contract. The motion was made by John Dougherty and seconded by Charles Weik.

day language and short sentences, so that anyone can pick up your report and know what you were talking about. You, as police officers, are dealing in facts and should use the words in your report that you would use if you were telling someone about it. This type of report is easier for you or anyone else to read and understand.

"Your notes taken at the time of investigation should be attached to your report and filed at the police department with the report. It is very important to take detailed notes in all cases as things you write down are more firmly impressed on your mind, and there is not as much chance to forget something. Also, you can make a more complete report from them."

Mr. McFadden then cited cases to explain just how important it is to have a good filing system for reports, especially the use of the cross reference file, also the importance of making detailed reports.
